

Plan Better. Build Better

CAPABILITY STATEMENT

Company Overview

Industrial Chemicals and Processes

DV Solutions, LLC is your single source distributor for industrial water management, dust control, lubrication, safety and sanitizing maintenance solutions and services and more.

- Advanced technology to treat **water hardness using the safest chemicals for water treatment**
- Waste treatment programs / products that **meet / exceed** municipal, state, federal water discharge limits
- Steam chemicals handle the **entire spectrum of boiler pressures**
- Chemical treatments **meet / exceed FDA – USDA- OSHA** for steam purity
- Leading **industrial chemical and technical solutions** for **end-to-end materials management** and controls
- Lubricants and equipment to **handle the most extreme conditions** – from advanced dust control and suppression in loading, crushing, conveying solutions to freezing exposure conditioning for materials systems.
- **Railcar and shiploading products and treatments** – to **prevent windloss, maintain compliance, preserve load**
- **Guaranteed** equipment protection and performance.

DV Solutions allows you to consolidate vendors, reduce costs, and ensure the highest quality industrial cleaning, sanitizing, lubrication, water treatment and dust management products and services. **World class service, optimized product application, on site technical service through MOMAR partnership** provides a unique ability to scale to meet any project needs.

Core Competencies

- Dust Control Chemicals and Equipment
- Dust Suppression Systems, Wash, Foam, Dry Fog
- Winterization Lubricants, Deicers, Antifreeze
- Cooling and Boiler Water Treatment, Equipment
- Biological Control and Treatment; Corrosion Control
- Wastewater Treatments; Solids Separation
- Technical Services and Support

Differentiators

- Leading **foam and wet spray dust suppression** technology
- **Full Operations dust control– crushing, loading, dumping, conveying, stack out and reclamation**
- **Railcar shiploading** treatments – **prevent windloss, maintain compliance, preserve load**
- **Coal Flow Improvers** prevent pluggage to keep coal flowing freely
- Programs / products that **meet / exceed** municipal, state, federal discharge limits for heavy metals
- Chemical treatments **meet / exceed FDA – USDA- OSHA** for steam purity

- **Guaranteed** equipment protection and performance

Past Performance

- State of Arkansas – **4 industrial roofing projects**
- Department of Veteran’s Affairs - **Replacement of UPS**
- National Park Service – **Demolition of structure** in Hot Springs National Park
- Department of Veterans Affairs – **replacement of automatic doors**
- Department of Veterans Affairs – **Elevator Maintenance** and repairs
- Department of Veterans Affairs – Install **new roof** – industrial building

NAICS Codes

- **325998** Chemical Product and Preparation Manufacturing
- **324191** Petroleum Lubrication Manufacturing
- **325199** Basic Organic Chemical Manufacturing
- **325320** Pesticide and other Agricultural Chemicals
- **325611** Soap and other Detergent Manufacturing
- **325612** Polish and other Sanitation Goods Manufacturing
- **325620** Toilet Preparation Manufacturing
- **424690** Other Chemical and Allied Products Merchant Wholesalers

Corporate Data

- **Derrick Suratt, CEO,** 501-303-0935

- DUNS Number - 080526256
- CAGE Code - 7T6K0
- Founded - 2017

Success Stories

Client: VA Medical Center, Fayetteville, AR

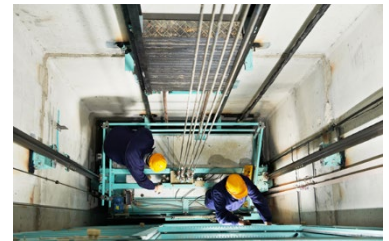

Project: Install New Roof

Services Value: \$574,000

The Problem: Replace existing, leaking roof on medical facility in area with frequent thunderstorms.

The Solution: DV Solutions worked to minimize weather related delays while maintaining budget.

The Result: Project was completed within budget despite weather and supplier interruptions and received Satisfactory ratings from customer.

Client: Department of Veteran’s Affairs, Little Rock AR

Project: Preventative Maintenance and Repair Services to all elevators, cart lifts and dumbwaiters

Services Value: \$1,983,000

The Problem: Complete service on all lift related services with minimum disruption to customers and staff

The Solution: DV solutions performed routine preventative maintenance and repairs on all lift devices

The Result: DV Solutions completed all repairs on time and within performance standards, minimizing inconvenience to customers and employees.

Client: VA Medical Center, Fayetteville, AR

Project: Document Destruction

Services Value: \$737,000

The Problem: As part of the overall document management policy and systems, the VA needed to securely dispose of patient sensitive and other protected information

The Solution: DV solutions performed secure shredding and disposal of all documents identified.

The Result: Full disposal services were completed on time and without issues meeting all customer service criteria satisfactorily.
